INTRODUCTION

Introduction

New Horizons Charter Academy will be a Los Angeles Unified School District public charter school that will serve students from grades Kindergarten through eighth grade. New Horizons Charter Academy was envisioned as a public institution to address the urgent need to alleviate the overflow of students to the neighboring elementary and middle schools in the North Hollywood catchment area.

Our research and communication with schools in our area and our conversations with community parents and other community members revealed that there is a great need to open a public charter school which will provide expanded educational support to the students and families in our area and adjacent communities. Our neighboring schools currently serve 90% - 100% of economically disadvantaged students of whom approximately 60% are English Learners. NHCA will help reduce class size to our neighboring schools. Our school will offer a lower teacher to student ratio than district schools in our area.

We aim to provide one teacher for every twenty students in grades K-2 and we will also provide each classroom with one teacher aide; in the upper grades we will provide one teacher and teacher aide for every twenty-five to thirty students. The approval of our charter will help make a great difference in reducing classroom size and providing families with a rigorous academic curriculum and expanded learning opportunities for their children.

New Horizons Charter Academy will prioritize the educational needs of our students through a charter school that will welcome students to a 21st century college-readiness curriculum in a technology-rich setting. Our school intends to serve students from various cultural and ethnic backgrounds of which Latino/Hispanic comprise about 60% of the students living in the North Hollywood catchment area neighborhoods. Our school will also serve students from the following cultures and ethnic groups in our area: Armenian, Pacific Islander, African American, American Indian, Asian, and Caucasian.

New Horizons Charter Academy will also welcome students from other adjacent areas until we reach capacity; NHCA will serve the instructional, social, and emotional needs students with disabilities who will be nurtured to thrive in the least restrictive environment.

Our Vision
At NHCA we believe every student is gifted, and we will provide all of our students with a rigorous and comprehensive, multi-disciplinary standards-based instructional program in all content areas; we value each one of our school community members and we will build on the cultural and linguistic backgrounds each individual brings with him/her. NHCA’s educational focus will be to provide all of our students with academic equity and solid foundations in science education, technology, and oral and written academic English skills so they become college prepared and career ready.

We, like “Most scholars believe that instruction in academic English — done early, consistently, and simultaneously across content areas — can make a difference in English learners’ ability to understand the core curriculum,” Academic Language and ELLs, U.S. Department of Education http://www.readingrockets.org/article/28880/
We endeavor to achieve our vision to increase students’ academic achievement by implementing research-based, standards-based instruction with an embedded technological support component throughout the curriculum, and developing NHCA as a community-centered school where we value partnering with our students’ families and/or legal guardians, community members, and LAUSD personnel; our partnership with California State University Los Angeles’ staff will provide systematic professional collaboration to support and strengthen our staff’s professional skills that will help make a difference and improve the quality of the education and services we will provide our students. Our collaboration will enable us to nurture the educational, social, and emotional needs of our student community.

Our Mission

New Horizons Charter Academy is committed to providing our students with a comprehensive education that will utilize state of the art technology, including but not limited to, SMART boards, flat screen computers, and iPads to support K-8 academic instruction that will nurture and prepare students so they develop 21st century skills from the onset. NHCA is highly committed to providing our students with a wide range of the educational strategies, programs, and tools that will motivate, meaningfully engage, systematically support, and continuously challenge them as individuals to develop critical thinking, collaborative, creative, mathematical, technology, and social skills so they become college-prepared and career ready.

To achieve our mission to educate our students to be 21st century global learners, NHCA aims to incorporate the following key elements to ensure their academic success:

1. **Offer** a multidisciplinary academic instructional program using state-of-the-art technology in every classroom which will implement the California State Standards; the Common Core State Standards will be fully implemented by 2014-15 to guide our instruction to prepare students to develop 21st century global skills; Our commitment is supported by the research of Nicole Pinkard, founder of Digital Youth Network, who asserts that “A nice side effect is that these skills are now helping some students get into highly competitive selective enrollment schools. Their media portfolios are their calling cards,” http://spotlight.macfound.org/blog/entry/wbez-profiles-pinkard/.

2. **Provide** students with a multi-disciplinary curriculum which will address individual students’ needs by incorporating the following sound academic practices:
   a. multiple intelligences as contemplated in Intelligence Reframed: Multiple Intelligences for the 21st Century, Gardner (1999), Backward Planning instructional approaches in Understanding by Design, 2nd Ed., Wiggins & McTighe (2005);
   b. applying effective strategies (i.e., providing students with prompt and immediate academic feedback) recommended in Classroom Instruction that Works, Marzano, Pickering & Pollock (2001);
   c. implementing Zwiers & Crawford’s (2011) five skills that focus and deepen academic conversations since “…these are the skills that empower students to communicate well...in whole class discussions, small groups, workplace meetings, social gatherings, and family interactions,” as developed and articulated in Academic Conversations: Classroom Talk That Fosters Critical Thinking and Content Understandings,(p. 2);
   d. also, to increase critical thinking skills and English oral participation in core subjects utilizing questioning strategies for inferential and elaborative probing to promote comprehension as articulated in The Art and Science of Teaching, Marzano (2007);
e. assisting struggling students with innovative strategies from Teaching the Brain to Read: Strategies for Improving Fluency, Vocabulary, and Comprehension (Willis, 2008); and

f. another helpful resource we will tap into is Marzano Research Laboratory (online) to avail ourselves of additional formative tools such as Proficiency Scales to monitor students' language arts progress (http://marzanoresearch.com).

3. **Embed technology** into our daily interdisciplinary instructional program to differentiate, complement, and enrich our academic instructional support to all our students. By showing the lesson on the computer using Microsoft Powerpoint or a web browser, the teacher can bring in supplemental research and material to embellish the lesson. The teacher may use an educational video to emphasis points and deepen the learning experience for the students.

4. **Expand learning opportunities for students and parents** through after-school learning activities which will vary from utilizing technology (for example, in the form of SMART Boards, flat screen computers and iPads) for a variety of projects which will include research, develop power-point presentations, content-specific activities such as practicing Language Arts or math skills; provide English Language support for students as well as for parents; offer homework support, sports practice; our staff will foster and support establishing stimulating opportunities to participate in a chess, oral debate, math, science, or creative writing after-school club.

5. **Partner** with faculty from the Charter College of Education at California State University, Los Angeles; partner with members from the North Hollywood Arts District (NOHO), Burbank, and Banking community members in North Hollywood to benefit our students from the resources our partners will bring to NHCA.

6. **Embrace our students' parents, family, and legal guardians** to be integral members of our school where they can participate as their time permits to share their talents, culture, language, and expertise with our student body. Interested parents will have on-going opportunities to become involved in our school, and our staff will nurture their involvement by supporting and collaborating with them to plan presentations after school or to present during school hours to compliment particular lessons or units of study; we aim to increase parental involvement and familial pride in our parents' lives so that they know they are valued members of our school community. Our school’s approach to increasing parental involvement is supported by extensive academic research: Banks, and McGee Banks (2012) relate successful strategies that have been used to increase parental participation, especially for parents and families of Culturally and Linguistically Diverse (CLD) students; specifically, they refer to attracting parental participation in schools that follow a community centered approach in which the school is the center of all activities, and a full service model where the school is the place where parents and families find a wide range of services and support for the varied needs of their households and children. When families were integrated and welcomed into the school culture, their participation increased dramatically as evidenced by parental representation in school councils and learning activities.

Teachers will collaborate to articulate and develop school-wide theme projects or units in which there is connecting of core subjects to the study of a relevant subject that facilitates the integration of more than one core content area. Teachers do not need to implement blue-print models of the same unit, but know that they can connect with what other classes and grades are investigating. Teachers at the charter school may discuss and collaborate on having time to celebrate their findings/ projects/ learning. A museum-style set up in the auditorium could be another way for students to display their academic work to celebrate learning and invite the school community to visit and view their projects...and after school event may work very well because of many working parents. There is ample academic research
that supports this multidisciplinary approach because the human mind learns best when presented with opportunities to learn using more than one intelligence and using rich materials.

As we grow our school community, we will extend a range of services available for parents, legal guardians, and extended family, such as CPI training for special needs parents, nutrition classes, cooking, English classes for parents, to follow the model of a school centered community. Our growth and our interactions will be guided by multicultural research that supports and increases family involvement.

New Horizons Charter Academy will provide professional development on a continuous basis to analyze the various Common Core State Standards’ Modules similar to how LAUSD has approached its Professional Development for teachers and school administrators. We will foster collaboration amongst our staff, and will establish ongoing communication with personnel from LAUSD to support the full implementation of the California State Content Standards and the Common Core State Standards at the Charter School.

**New Horizons Charter Academy Goals**

**School-wide Goals:**

1. To establish a community of 21st century learners where each one of our members feels invited and welcomed to a school culture where they feel safe, supported, motivated, and challenged to achieve and thrive academically, socially, and emotionally. At NHCA we aim to increase standardized test scores annually by at least 10 percentile points above LAUSD’s schools average.

2. Design an effective and systematic academic intervention program to provide intensive support for each student performing below the 25 percentile in Language Arts so that they advance to the next performance level of achievement.
3. To enable students to become self-motivated, competent, and lifelong learners.
4. Incorporate daily in-class reading (Drop Everything And Read, “DEAR”) for 20 minutes and engage for 10 minutes in critical analysis using writing journals to interact in understanding various genres literary elements.

Teacher Goals:
1. Increase standardized test scores over the term of the charter above District’s average
2. Design an effective and systematic academic intervention program to provide intensive support for each student performing below the 25th percentile so that our students advance to the next level of academic achievement.
3. Support every student to develop the academic competencies of a 21st century educated global learner to succeed in high school and college.
4. Improve students’ writing competencies through the use of technology across content areas as they pursue grade-level benchmarks, delve into self-selected research projects, and develop confidence in their oral presentation skills of written/multimedia projects.

Teacher Goals:
1. Implement ongoing opportunities to conduct educational research, collaborate with peers, develop and implement effective instructional practices to address data-driven student needs.

Administrative Goals:
1. Provide our teachers with the Professional Development and support needed to implement the Common Core State Standards by 2014-15.
2. Increase parental and legal guardians’ participation and involvement in our school through planned activities and encouraged volunteering of 3-4 hours per month (for families who cannot donate time to participate in the classroom, other family members can volunteer)

Educational Program

NHCA’s educational program has been influenced, among other theorists and educational research, by the educational/theoretical foundations of Vygotky’s Zone of Proximal Development (1978), Freire’s Critical Pedagogy (1962), Piaget’s Cognitive Theory of Child Development (1970), Gardner’s Multiple Intelligences Theory which helps to identify the specific talents children exhibit (1999), Goleman’s Emotional Intelligences (1995), Wiggins & McTighe’s Understanding by Design (Backwards Instructional Planning) (2005), Marzano’s questioning that promotes comprehension in the Art and Science of Teaching (2007), to provide pedagogical support to offer our students a sound, effective, and differentiated approach to addressing their academic, linguistic, intellectual, cultural, social and emotional needs.

Our instructional design to support, monitor, and differentiate the academic, social, and linguistic needs of our ELs integrates research-based approaches recommended by the California Department of Education (2010): Improving education for English Learners, and will follow the English Learners Master Plan and teaching modules to guide, instruct, and monitor our ELs’ academic progress. We will be guided by Dweck’s research on promoting long term success by providing students with meaningful work so that “…teachers praise the learning process rather than students’ ability, convey the joy of tackling challenging learning tasks, and highlight progress and effort” Educational Leadership/September
2010, p. 20. The research by Ehri, Dreyer, Flugman & Gross (2007) offered instructional understanding about three effective approaches to support struggling ELs and other students experiencing learning difficulties: 1) most successful readers improve from reading at 98% or higher accuracy (correct words read by high readers who make about 2% of reading errors and correctly read a passage with 98% success rate), 2) struggling students who received small group reading support from the teacher, rather than a paraprofessional, accelerated their reading abilities, and 3) “Self-selected reading activity seems to be about twice as powerful at generating reading development as teacher-selected reading,” Allington, p. 43 in Educational Leadership/March 2011. www.lausd.net/gate, The Thinker, and www.cde.ca.gov/sp/gt/gt/ will provide support and guidance to address the identification and instructional needs of our Gifted and Talented Education population. Hyerle’s (2004) school-based research on using Thinking Maps as effective visual tools to make instruction comprehensible are integrated in the instruction of all content areas at NHCA. Nicole Pinkard, John Seely Brown, and Hall Davidson’s research and expertise will serve to enlighten our staff’s effective integration of digital technology in daily academic instruction.

Specifically, at New Horizons Charter Academy all members of our community are responsible for the school-wide implementation of our mission, vision, and goals, as follows:

- The New Horizons Charter Academy community and partners will maintain the highest level of integrity in fiscal management while seeking all available resources and using them effectively to support the instructional program.
- The New Horizons Charter Academy community will work cooperatively and collaboratively to create a child-centered environment that is safe, free of violence, drugs and harassment, in which all partners are empowered by their own sense of ownership and responsibility to the charter school.
- The students, parents and employees of New Horizons Charter Academy will collaboratively establish and model the highest standards for student achievement, positive self-esteem, pro-social values, and respect for cultural diversity.
- The employees of New Horizons Charter Academy will demonstrate their belief in the value of lifelong learning and model the appropriate and desired behaviors and attitudes expected of students.
- The staff will motivate students of New Horizons Charter Academy to actively seek learning opportunities by working cooperatively, thinking critically, and striving to master rigorous academic standards attainable through self-monitoring individual academic goals.

**Target Student Population**

NHCA is designed to serve students in grades K-8 who would be at risk of achieving below basic proficiency in state examinations. Our school will attract children of parents who seek an alternative to their current educational choices; who desire an innovative instructional program (provide technology enrichment across content areas to scaffold and challenge the students to utilize and innovate to compete globally), which includes a multidisciplinary, technology-embedded extended school-day approach to learning; and who share the vision of the Charter School. The North Hollywood area is intended to be the principal source of students attending the Charter School. Students will be challenged to utilize technology in their daily instruction to increase their expertise to incorporate it and manipulate it when doing power point reports that will require learning how to develop various
formatting documents, importing images and video hyperlinks, using the features of the smart boards to enhance their presentations that can be accessed through wireless internet service. Students will be able to access Wall Street data in the analysis of math projects as they relate to local economies and relevant social issues. Core content is more interactive using technology tools in exploring science topics such as global warming and its impact on humans, animals, and ecological implications. Technology utilizations will foster the development of global skills that relate to the critical analysis of informational text, visual text, and evaluating the resources the will use from different perspectives. Once students become familiar on how to use the technology tools available to them, teachers may tap into resources that can help students while challenging them on expanding their expertise and utilization of technology as a learning tool.

Our school will be a community-centered school with a small population of students in order to offer students and parents a more personalized approach to joining our school community. There is ample research which supports the small school approach to successfully involving parents in the overall education of their children, thus we anticipate our success will be the direct result of consistently using data analysis results to monitor student learning, providing intensive academic support to Tier 3 students, and working more closely with parents, legal guardians, LAUSD, and community members to ensure the success of all our students.

The Charter School seeks to establish an elementary and middle charter school to provide a choice for families in the North Hollywood area where many of the elementary schools are consistently performing at low levels. The Charter School will enroll approximately 20-35 students per grade per year, beginning with kindergarten through 6th grade, with an end goal of educating approximately 293 students annually by the end of the first charter term in grades K-8.

The following chart illustrates NHCA’s grade build out plan for the first charter term:

How Learning Best Occurs

At NHCA we believe that learning best occurs when students, regardless of race, culture, language, ethnicity, or gender orientation are helped to identify their academic/intellectual strengths that will serve as the baseline by which to establish learning goals to monitor their educational achievement. Learning best occurs in a climate conducive to emotional safety and personal relevance. In such an environment, teachers serve as mentors, demonstrating enthusiasm for the subjects they teach, and guiding students to discover a passion for learning.

Charlotte Danielson (2007) posits that of the four domains of teaching (Domain 1: Planning and Preparation; Domain 2: The Classroom Environment; Domain 3: Instruction; Domain 4: Professional Responsibilities), Domain 2, the classroom environment can guide us to build a school culture of learners. Danielson promotes that students most fondly remember those teachers who provided a caring and safe, nurturing environment in which teachers shared high academic expectations for the students while being supportive and compassionate to achieve their intellectual potential.

Also, learning best occurs in a classroom environment where teachers offer academic and emotional support to students to begin instruction at their current level of understanding by building on what the student knows and is able to do so that appropriate resources will have a positive impact on students’ learning. Teachers have a wide repertoire of strategies such as the following: breaking down longer assignments and text into small chunks, pre-teaching and re-teaching, using advanced organizers and Thinking Maps to provide access to the core, scaffolding and differentiating through various groupings and one-on-one, coupled with intensive, effective, standards-based instructional support that includes monitoring and prompt and effective feedback toward meeting individual student goals that will help take the students to their next level of understanding and academic achievement. Learning best occurs in classrooms where students are encouraged to take chances and take on challenges because they know that they have the emotional and academic support they need to develop their academic potential. Learning best occurs where students have access to explore, use, integrate, and expand their knowledge using state-of-the-art technology. At NHCA, students will be offered great learning opportunities to realize their academic potential. NHCA strongly believes that it will make a difference in improving students’ educational goals.

As educators, the New Horizons Charter Academy faculty will strive to maintain a challenging and secure environment in which children attain and demonstrate the confidence and ability required to master the challenging academic content of the California Content and Common Core State Standards and become proficient in meeting English language grade level benchmarks.

The goals of the New Horizons Charter Academy will enable all students to become self-motivated by utilizing the rich technology resources, establishing learning goals, pursuing individual interests through membership in the various after school clubs (LA’s Best will provide many enrichment opportunities), and/or school leadership opportunities to develop leadership skills, or compete in various activities such as spelling bees, science projects, media projects, speaking debates, story writing, etc. We will nurture our students to become competent lifelong learners through the following: the delivery of a rigorous standards-based instructional program that will offer students multiple ways of learning via direct instruction, explorations and research, class and self-selected projects, various groupings, guest speakers/presenters; fieldtrips, mentoring, and rich learning resources needed to be self-motivated and successful global learners. Each grade level will include approximately 20-35 students and the capacity of the Charter School in its first term will be approximately 293 students.
All students will participate in a full-day instructional program beginning on the first day of school.

**Educated Person in the 21st Century**

The goal of NHCA is to provide an environment in which children will develop into confident, self-motivated, competent, effective communicators, productive, and life-long learners. Vested with these skills, these children will become responsible young adults. Students will possess the habits, skills, and confidence necessary to succeed in school and beyond, as contributing citizens of the 21st century.

At NHCA, our students will become knowledgeable technology users. Our state-of-the-art technology tools (for example SMART Boards, flat screen computers and iPads) will support our students to integrate and optimize its use across content areas to nurture and challenge 21st century learners, and thus it aligns with the research which supports the role of technology in education.

Specifically, NHCA’s Educational philosophies about what it means to be a 21st century learner are guided by the research from Hall Davidson (Discovery Education) who believes that children need to use media and “…make the content their own by interaction with it and mashing it so that it becomes something new and personal for that child.” In a 21st century classroom, students’ instruction is infused with technology, and John Seely Brown (Chairman of the Deloitte Center for the Edge) states that “…educators need to provide students with freedom to be curious and ask questions, and give them the standards and feedback they need to grow as learners.” Nicole Pinkard (founder of Digital Youth Network) argues that as children become adept in using technology, “They need to use it as a tool to actually create new content and new ideas.”

The integration of technology in our 21st century classrooms will be an undeniable tool in enriching and supporting NHCA’s multi-disciplinary education program for all our students, which will benefit from the insightful and reflective work of Mandy Durrence who posits that in a 21st century classroom teachers develop authentic learning opportunities that are relevant to the lives of the students and their communities. Teachers model how to communicate ideas effectively, collaborate using digital media, support students to think critically to evaluate whether a source of information is credible, and teachers model how to get digital information safely and responsibly (What Does a 21st Century Learner Look Like?, May 5, 2011); research in this area recommends that teachers need to help students embrace change, learn how to collaborate with peers, use multiple problem-solving approaches, and foster innovation of ideas. Our school believes that an educated person in the 21st Century should possess the academic and life skills listed below. The Charter School will provide the support students need so that they attain these skills by the time they have completed the NHCA education program.

In addition to the above, an education person in the 21st Century will need the following skills:

**Academic Skills**

- Students will read for comprehension and critical understanding at or above grade level.
- Students will be mathematically literate, able to compute, to solve real world problems, and to successfully apply conceptual understanding of key ideas in mathematics to novel challenges at or above grade level expectations.
- Students will be inquisitive and self-motivated life-long learners.
• Students will communicate through effective listening, speaking, and writing as evidenced in their ability to be persuasive and support their individual viewpoints, orally and in written form.

• Students will possess creative, logical, and critical thinking skills. Students will develop the intellectual reasoning skills needed to analyze, synthesize, evaluate, and apply their understanding in the areas of art, science, history, and technology.

• Students will comprehend and use technology as a tool for learning and communication and will apply those skills in real-life, community-centered projects.

• Students will have confidence in adapting to new situations and be receptive to learning.

• Students will analyze new information and synthesize what they know to construct new knowledge, and also will be able to explain the process of how they arrived to a new understanding.

• Students will find, select, evaluate, organize, and use information from various sources and disciplines of thought. They will be able to collaborate and discuss how to make logical connections among them.

**Life Skills**

• Students accept responsibility for personal decisions and actions.

• Students develop self-confidence and a willingness to take risks in a safe learning environment.

• Students learn concentration, perseverance, and independent working skills by setting personal goals and self-assessment.

• Students learn about the connection between their everyday food choices and the health of the community, the environment, and themselves.

• Students involve themselves in exploring health and nutrition research to become informed consumers, and will influence others through pro and con poster projects using various media.

• Students keep logs of healthy choices they make at home and school, and parental/legal guardians’ input is encouraged.

• Students develop an appreciation for the richness of shared knowledge that flows from the culturally diverse environment of California.

• Students are inspired to have empathy and courtesy for others.

• Students work both cooperatively and independently.

**A Typical Day for a NHCA student**

Our planned schedule is well-organized and well-structured to make the best use of time and space for students and staff. Clearly defined responsibilities and schedules will ensure a safe campus where students are well supervised at all times and highly engaged in a rigorous instructional program.

**7:30 a.m.** Administrators, teachers and other certificated staff begin to arrive.
Administrators and teachers will be available for conferences, as needed, to accommodate parents’ work schedules. Teachers’ scheduled hours are 7:40 a.m. to 3:25 p.m. and administrators’ hours are 7:30 a.m. to 4:00 p.m. All staff members are on campus beyond their scheduled hours.

Administrators will meet with staff, parents and community members throughout the day for scheduled and unscheduled conferences.

**7:45 a.m.** Breakfast service ends and cafeteria gate is closed.

**7:55 a.m.** School Starts

Teachers will pick up classes from the yard and walk students to classrooms. Administrator will check grounds to ensure that all students are in classes and accounted for.

**8:00 a.m.** Attendance is taken and reports given to Office Manager.

Paraprofessionals arrive.

Paraprofessionals will report to work in classrooms, supporting the instructional program as directed by teachers.

Instruction begins in all classes. Charter School teachers have carefully planned their daily schedules to incorporate art and music specialists throughout the day and throughout the week. They accomplish this while also ensuring the full implementation of the language arts, mathematics, history/social science and science programs.

**9:30 a.m.** First Recess

Kindergarten and first grade students will be supervised by paraprofessionals at assigned areas. Equipment is marked for each set of areas and selected ball monitors from each room pick up equipment.
9:50 a.m. Bell rings for end of first recess.

Students will line up at assigned areas and teachers will pick up students. Instruction in language arts continues, to be followed by instruction in mathematics. Selected classes participate in arts or music instruction according to set schedules.

English Language Development Computer Lab schedule will begin for scheduled classes.

10:05 a.m. Second recess

10:25 a.m. End of second recess/Instruction continues

12:00 p.m. Lunch

12:45 p.m. Teachers will pick up students and return to classrooms to work on history/social science or science curriculum (or work with art or music specialists depending on schedule). Teachers will be teaching at least two core subjects and provide advisement, or conduct enrichment or intervention classes to differentiate academic support to students.

Some students will participate in psychomotor programs, including yoga and music. (Mondays and Thursdays, or Tuesdays and Fridays) Teachers will refine the instructional schedule to establish the participation of the students in psychomotor activities and music and yoga. Initially, while some students are taking art, or core subjects, the teachers will select the group of students who will take turns participating in psychomotor, yoga, and music.

Grade level meetings will be held and teachers share current research for best instructional practices and strategies to strengthen their practice and support to students: teachers also work on lesson planning, reviewing and monitoring pacing of each curricular area, and review assessments, benchmarks and progress of students. Teachers explore ideas and monitoring examples about how to involve students in establishing learning goals to monitor their progress. Teachers summarize grade level meetings and include next steps.

3:30 p.m. Dismissal

Campus security and assigned paraprofessionals oversee dismissal. Teachers walk classes to assigned gates for dismissal. Teachers who will be teaching intervention classes, ask the students to form two lines (to ensure the safety of children at all times): one line for students who go home with their families, and the second line is for students who will return to their classrooms for academic tutoring/intervention.

Students who remain for after-school programs walk to the assigned meeting areas:
- After-school playground
- Students receiving tutoring by classroom teachers remain in classrooms.

4:00 p.m. Office Manager leaves for the day.
6:00 p.m.  Administrator of New Horizons Charter Academy closes school
Parents check students out at assigned gates.

Most staff members will have departed for the day unless parents have requested a late conference or committee or parent informational meetings have been scheduled for the community. Custodial staff will check all classrooms, offices, and gates to ensure all areas are locked and inaccessible.

**Technology:**

New Horizons Charter Academy is committed to a sound technology program using the latest “state of the art” equipment purchased especially for our population.

Rather than a subject in and of itself, learning to use technology alone can best be accomplished as a direct result of academic instruction. As students research, investigate and explore the vast array of technology tools New Horizons Charter Academy will make accessible in all classrooms, students become highly proficient, comfortable, and confident in their effective use of these tools. The New Horizons Charter Academy staff will explore how best to integrate technology use in the classroom, and will start from the premise that a systematic, step-by-step program is the least effective practice for encouraging confident, competent technology use. To more clearly align and integrate students’ use of technology with content instruction and learning, the Charter School plans to follow Dr. Ruben Pumentedura’s model of technology utilization in four stages, as illustrated below.

**NHCA Transformational Tools**

Dictionaries, study guides and history sites
a direct tool that offers key functional features to support and foster academic improvement. linked to online text.

**Substitution**

Technology acts as direct tool substitute, with no functional change. Shakespeare texts read in online versions.

**NHCA Educational Enhancement**

Online text versions may be transformational because as students read literature works using technology, they can access the footnotes to expand their understanding of textual analysis, can access the notepad in their devices and respond to passages to provide examples of literary devices such as simile, metaphor, tone, conflict, etc. Online text versions may be transformational because the students may also be able to access YouTube in education to view examples of some movie clips about their literature selections so that they see printed text in a more visual format to understand and enjoy their literature selections and discuss them more critically with their peers.

Viewing the use of technology through the lens of this hierarchy, students become independent learners, producing and directing the projects that showcase their work.

**Instruction**

Teachers, more than the curriculum, have the greatest impact on student achievement. Tim Markey investigated research on teacher effectiveness and reports that according to Sanders & Rivers (1996) and Wenglinsky's (2000), “Teacher effectiveness outweighs all other factors, such as class size, socioeconomic status, and gender,” Defining the Effective Teacher: Current Arguments in Education, (p. 3) http://www.usca.edu/essays/vol112004/markey.pdf.

New Horizons Charter Academy recognizes the critical role teachers play in determining a student’s success or failure, and will continue to focus on direct instruction as the primary instructional approach. Although small group and individualized instruction are also utilized, direct instruction, and the specific methodologies associated with direct instruction, define the instructional practice of the Charter School.

To refine and align the instructional practice of the entire teaching staff, Data Works, an educational research group, has worked with teachers to implement its “Explicit Direct Instruction” (“EDI”) methodology. Although similar to the seven step lesson plan format, EDI places significant emphasis on the consistent incorporation of Specifically Designed Academic Instruction in English (“SDAIE”) and cognitive strategies, while recent studies in brain research inform all aspects of the approach. The EDI approach places emphasis on constantly checking for understanding while echoing student responses and allowing enough wait time for students to respond which in turn effectively helps our large population of English Learners (“EL”). Our teachers and other selected staff members will be trained in EDI classroom coaching techniques which will also include lesson plan development, strategies, use of resources, classroom observation and timely feedback.
The consistent implementation of a specific instructional delivery system, and regular classroom observations, ensure the continued emphasis on standards for teaching. The Enhancing Professional Practice: A Framework for Teaching serves as the foundation of the teacher evaluation system. The work is a framework for novice and experienced teachers based on the PRAXIS III, the classroom performance assessments developed by the Educational Testing Service. Utilizing both the EDI coaching matrix, Robert Marzano’s observation and Feedback Protocol, and the rubric for effective teaching practices from Enhancing Professional Practice, a clear and well-articulated description of thoughtful lesson implementation continues to be in place.

Teacher Recruitment

New Horizons Charter Academy will establish well-defined policies and practices in order to employ personnel who will promote and implement the mission, vision and goals of the Charter School. The Board of Directors determines the qualifications and job descriptions for all positions to ensure that applicants can fulfill New Horizons Charter Academy’s goals and expectations.

A recruitment committee, consisting of teachers, administrators and other certified staff, participate in job fairs sponsored by colleges, universities and organizations such as the California Charter Schools Association to screen and recommend teacher candidates for hire at New Horizons Charter Academy. An interview committee, separate from the recruitment committee, but also consisting of teachers, administrators, other certified and classified staff, will interview candidates and invite selected candidates back to present lessons in core subject areas. Candidates will be highly qualified per NCLB and will be observed by this committee and recommended for hire to the Board of Directors.

Professional Development

An additional goal of the New Horizons Charter Academy will be to build a foundation for academic and social success for all students through a language-rich learning environment where hands-on experiences and research-based strategies come together.

All professional development focuses on the educational mission of NHCA.

Professional development activities will be provided throughout the school year and all programs and school-wide initiatives are implemented with ongoing support from vendors and consultants. A trainer-of-trainers model is used to make the most effective use of resources with Lead Teachers serving as the trainers and mentors.

Three full days of professional development for all certificated staff are scheduled yearly if the calendar allows. Certificated personnel will participate in three pupil-free days of professional development, and will continue to participate in ongoing PDs throughout the academic school year. Teachers will be encouraged to attend professional growth workshops and conferences that will help expand their instructional skills. The focus of professional development activities is recommended by the Instruction Committee, an advisory committee to the Board of Directors. Final determination is made by the Board of Directors after careful analysis of results from benchmark assessments presented quarterly and other standardized assessments from the previous year.
Teachers engage in on-going academic research to strengthen their practice and support to students; they take turns within their grade levels to present their findings to their peers during Professional Development and collaborate how to implement research-based strategies. Teachers will be encouraged to share their research of best practice findings during grade-level meetings when they analyze data, plan instructional steps to address differentiation, and share relevant articles in education with their peers.

**Meeting the Needs of Diverse Learners**

**Serving Academically Low-Achieving Students**

Students who are at-risk of retention, who have been retained, or who are achieving below grade level or below proficiency on standardized tests receive targeted support during daily lessons via scaffolding, various groupings and foster comprehension; at-risk students will also receive the following support: working one-on-one mini-lessons on targeted skills, using SDAIE strategies to access content, model linguistic patterns and function forms to assist in class participation, utilize Mind Maps to make information more comprehensible, provide Pre-teaching and re-teaching of key lessons, concepts, and ideas, offer primary language support if teacher is bilingual in the student’s home language, during Universal Access Time (“UAT”), and establish data-driven student learning goals; they also receive additional instructional support through participation in after class intervention programs, as well as in after school tutoring programs. At-risk students who underperform academically will receive targeted support addressing instruction to help them understand and meet specific benchmarks and/or content and common core state standards. Data analysis will determine specific areas of academic differentiation to support students. Academically low-achieving students are identified through a multifaceted approach utilizing summative and formative classroom assessments, teacher observations, parent input, and performance on standardized assessments, including the CST and CELDT. The CELDT results will be analyzed to identify students who score 3s or 4s to evaluate whether they meet the criteria to exit ELD instruction and reclassify as Re-designated Fully English Proficient students (RFEP). The CELDT’s results will help to identify ELD students who underperformed and obtained low scores such as 1s and 2s, and while they may be making some academic progress, teachers need to collaborate and develop specific plans of academic intervention to provide students with the necessary instructional, social, and emotional support they need to achieve academically. Students receive assistance through the following activities:

- Faculty meetings to discuss specific strategies that will target the student’s weakness, and a plan to implement learning goals is also written
- Individualized assistance from paraprofessionals
- Parent workshops to support home-school activities, communication, and when available, provide extended support at home using educational programs for early literacy, reading, and math.
- Multiple computers in all classrooms in addition to computer lab
- Parent volunteers
- Small group and individualized instruction in all classrooms
- Behavioral and Academic Student Study Teams
- Supplementary materials aligned with core programs for use in after school programs

**Serving Academically High-Achieving Students**
New Horizons Charter Academy will implement a variety of strategies to identify and support academically high-achieving students:

- Visual art, yoga, dance and music specialists
- Multiple computers in all classrooms with access to internet to integrate technology in learning
- New Horizons Charter Academy may contract with a psychologist to identify students who have been referred as potentially gifted to participate in the GATE program
- Individualized assistance and support from paraprofessionals
- Team teaching and collaboration to support differentiated instruction
- Supplementary enrichment materials for core subjects
- Allow for leadership opportunities by participating in various school functions

The integration of technology in daily lessons will foster high interest to support students who prefer to investigate topics using internet tools and those who would rather write their various reports using Word to process their ideas, insert hyperlinks for added visual and sound effects, share websites that they used in their research, and provide mentorship to other students would benefit from peer support, especially during Universal Access Time when many students work independently or in small groups. Academically high-achieving students can use technology to develop leadership skills, expand their knowledge and thinking skills through topic investigations, become adept in using more sophisticated programs such as using power point, inserting charts, using drawing tools, and use their iPads to send their reports to their teacher as well as share with their peers, make notes of questions, access the online thesaurus to enrich their vocabulary, and learn how to become familiar with multidisciplinary studies and projects. They will be able to use technology tools at their disposal to become global learners.

Academically high-achieving students are identified through a multifaceted approach utilizing summative and formative classroom assessments, teacher observations, parent input, and performance on standardized assessments including the CST and the CELDT (for English Learners). The CELDT will be used to analyze the results to identify academically high achieving students who get more 4s than 3s and get an overall score of 4; this data will indicate that these students have met ELD benchmarks and may be ready to be re-designated as fully English proficient because the students’ data would reveal that they performed at an advanced academic level. The teacher can provide more learning opportunities to nurture high achieving students who typically are able to follow multiple-step directions and work successfully alone, with partners, or small groups.

**Serving Socioeconomically Disadvantaged Students**

New Horizons Charter Academy adheres to the regulations of the reauthorization of the Elementary and Secondary Education Act, No Child Left Behind (“NCLB”), and will utilize funding and other resources to enhance the Targeted Assistance Title I program by providing:

- An average class size of 20 students in grades K-2, and 25-35 in grades 3-8
- Whole group, small group and individualized direct instruction
- Grade level teachers will meet regularly to discuss students who are struggling and a plan using specific strategies to target the student’s academic needs
• Intervention time outside the classroom is provided for students who are struggling with language arts
• The services of an elementary counselor, school psychologist and speech language therapist may be contracted
• Field trips aligned to specific areas of study
• Computers in all classrooms
• Latest technology (e.g. SMART Boards, flat screen computers, iPads, document readers, school-wide internet access, and microscopes and other tools for science) available to all students
• Paraprofessionals to provide individualized and small group assistance
• After school tutoring for those needing this assistance
• An English Language Development (ELD) computer lab
• Art, music, yoga and dance
• A structured psychomotor program following physical education standards
• Supplementary materials and resources in all classrooms (manipulative materials, software in all core subjects, classroom libraries)

Serving English Learners

Overview:

New Horizons Charter Academy will meet all applicable legal requirements for English Learners (“EL”) as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, re-classification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The charter school will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents.

Home Language Survey:

The charter school will administer the home language survey upon a student’s initial enrollment into the charter school (on enrollment forms which are distributed and return following admission to the Charter School).

California English Language Development Test (CELDT):

All students who indicate that their home language is other than English will be CELDT tested within thirty days of initial enrollment and at least annually thereafter between July 1 and October 31st until re-designated as fluent English proficient.

The charter school will notify all parents of its responsibility for CELDT testing and CELDT results within thirty days of receiving results from the publisher. The CELDT shall be used to fulfill the requirements under the No Child Left Behind (NCLB) Act for annual English proficiency testing.

\(^2\) The thirty-day requirement applies to students who are entering a California public school for the first time or for students who have not yet been CELDT tested. All other students who have indicated a home language other than English will continue with annual CELDT testing based upon the date last tested at the prior school of enrollment.
Reclassification Procedures:

Reclassification procedures utilize multiple criteria in determining whether to classify a pupil as proficient in English including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument including but not limited to, the California English Language Development Test (CELDT).

- Participation of the pupil’s classroom teachers and any other certificated staff with direct responsibility for teaching or placement decisions of the pupil to evaluate the pupil’s curriculum mastery.

- Parental opinion and consultation, achieved through notice to parents or guardians of the language reclassification and placement including a description of the reclassification process and the parents opportunity to participate, and encouragement of the participation of parents or guardians in the reclassification procedure including seeking their opinion and consultation during the reclassification process.

- Comparison of the pupil’s academic performance in basic skills against an empirically established range of performance and basic skills based upon the performance of English proficient pupils of the same age that demonstrate to others that the pupil is sufficiently proficient in English to participate effectively in a curriculum designed for pupils of the same age whose native language is English.

- New Horizons Charter Academy teachers will utilize an English Language Development (“ELD”) Retell Assessment to measure progress in oral skills regarding comprehension, fluency, vocabulary, pronunciation, and grammar usage.

Strategies for English Learner Instruction and Intervention:

New Horizons Charter Academy will commit the resources necessary to ensure that all students learn to speak, read and write competently in English. Support and assistance will be provided through a variety of programs and activities:

- Bilingual paraprofessionals will provide teacher-directed instructional support for students and will provide translation for parent conferences
- Education workshops for parents of students that model and teach effective strategies to foster phonemic awareness, blending and comprehension
- Computers will be in all classrooms to provide access to a variety of resources
- The ELD component of the Treasures language arts program in all classrooms promotes effective strategies for English language acquisition
- Middle grade students will benefit from additional support from paraprofessionals in the classroom, the use of SDAIE, and other ELD effective instructional strategies will help students understand core subjects. Extended support will be provided to all grade levels so that targeted support throughout the year is available to all students.
- Isolated intervention time is provided for students who are struggling with English acquisition
• The part-time music teacher services all grades and provides a different avenue for English language acquisition
• Students will also benefit from interacting with their peers during UAT and small group activities.
• All students will benefit from computer assisted instruction (during and after school) to receive practice support, immediate feedback of correct items, progress monitoring data, and multiple levels to develop mastery of skills.

Monitoring and Evaluation of Program Effectiveness

At NHCA, the evaluation for the educational program effectiveness for ELs will include:

• Adhere to Charter School-adopted academic benchmarks by language proficiency level and years in program to determine adequate yearly progress.
• Monitoring of teacher qualifications and the use of appropriate instructional strategies based on program design.
• Monitoring of student identification and placement.
• Monitoring of parental program choice options.
• Monitoring of availability of adequate resources.

English Learner Instruction
The Charter School is required to timely identify potential English Learner students and provide them with an effective English language acquisition program that affords meaningful access to the Charter School’s academic core curriculum. Instructional plans for English Learners (EL) must be (1) based on sound educational theory; (2) adequately supported with trained teachers and appropriate materials and resources; and (3) periodically evaluated to make sure the program is successful and modified when the program is not successful.

On an annual basis (on or about October 1), the Charter School shall submit a certification to the District that certifies that they will either adopt and implement LAUSD’s English Learner Master Plan or implement the Charter School’s own English Learner Instructional/Master Plan. If Charter School chooses to implement its own EL plan, the instructional plan shall encompass the following, including but not limited to:

• How ELs’ needs will be identified;
• What services will be offered;
• How, where and by whom the services will be provided;
• How the program for ELS is evaluated each year and how the results of this assessment will be used to improve those services (annual report of the assessments)

The Charter School shall provide to CSD a copy of its entire, current plan upon request such as during the annual oversight review process.

The Charter School shall administer the CELDT annually. The Charter School shall also ensure that it will provide outreach services and inform parents with limited English proficiency with important information regarding school matters to the same extent as other parents.

Special Education Program
All charter schools must adhere to all terms and conditions of the *Chanda Smith Modified Consent Decree* (“MCD”) and any other court orders and/or consent decrees imposed upon the LAUSD as they pertain to special education. Charter schools must ensure that no student otherwise eligible to enroll in their charter school will be denied enrollment due to a disability or to the Charter School’s inability to provide necessary services. Policies and procedures are in place to ensure the recruitment, enrollment and retention of students with disabilities at charter schools.

Prior to Los Angeles Unified School District (“LAUSD” or “District”) Governing Board approval, the Charter School will either execute a Memorandum of Understanding (“MOU”) by and between LAUSD and the Charter School regarding the provision and funding of special education services consistent with the requirements of the LAUSD Special Education Local Plan Area (“SELPA”) Local Plan for Special Education.

A Memorandum of Understanding (“MOU”) will be executed by and between the Los Angeles Unified School District and New Horizons Charter Academy regarding the provision and funding of special education services consistent with the requirements of the LAUSD SELPA Local Plan for Special Education.

**SELPA Reorganization**

The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code § 56195.1(a) and intends to continue operating as a single-District SELPA as in the current structure but has created two school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA will begin in the 2013-2014 school year requiring all District-authorized charter-operated schools to elect one of the three options available under the LAUSD SELPA. Prior to an Option election, all District-authorized charter schools shall participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that have previously executed an Option 3 Memorandum of Understanding (“MOU”), will be required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated schools will not have a LEA status but will function in a similar role in that each charter school will be responsible for all special education issues including services, placement, due process, related services, special education classes, and special education supports. Charter schools may apply for membership in the Charter-operated Program section of the SELPA. These schools will receive support from a Special Education Director for the Charter-operated Programs.

**Modified Consent Decree Requirements**

All charter schools chartered by LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of the *Chanda Smith Modified Consent Decree* (“MCD”) and other court orders imposed upon District pertaining to special education. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measureable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual and
Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the Modified Consent Decree, data requests from charter schools that are not connected to the District’s current Student Information Systems (“SIS”) are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s required format and are as follows:

1. The Independent Charter School Suspension/Expulsion Report, due monthly throughout the school year.
2. Paper SESAC Report and Welligent Student Listing Verification, due monthly throughout the school year.
3. CBEDS, which is due at the end of October of Each School Year.
4. All Students Enrolled December 1 of Each School Year, due at the end of December every school year.
5. Graduation Status of 12th Grade Students Enrolled on December 1, due at the end of June every school year.

The MCD requires charter schools to implement the District’s Integrated Student Information System (ISIS). ISIS is a suite of applications which is designed to capture all District student data.
Element 2 – Measurable Student Outcomes

“The measurable pupil outcomes identified for use by the charter school. ‘Pupil outcomes,’ for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program.” Education Code 47605 (b)(5)(B).

**Measurable Outcomes:**

**Kindergarten -**

*Language Arts*

New Horizons Charter Academy kindergarten students will be assessed at the beginning of the year using a grade level standards-based assessment. The same assessment will be given at the end of the year to measure growth and content standard achievement using the current language arts adoption and the kindergarten California Content and Common Core State Content Standards.

New Horizons Charter Academy first grade students will be assessed at the beginning of the year using a grade level standards-based assessment. The same assessment will be given at the end of the year to measure growth and content standard achievement. Our teachers will use current language arts adoption and first grade California Content and Common Core State Content Standards.

The same assessment will be given at the end of the year to measure growth and content standard achievement. Our teachers will use current language arts adoption and first grade California Content and Common Core State Content Standards.

**Second Grade – 8th Grade –**

New Horizons Charter Academy 2nd through 8th grade students will take the California Standardized Test (CST).

New Horizons Charter Academy *Academic Performance Index (API)* will meet or exceed its target and New Horizons Charter Academy will maintain a similar school API ranking of at least “5” or higher (as defined by the State) in the majority of the years covered by this petition.

New Horizons Charter Academy will maintain a 5-point higher API score than District schools that are within our ADA and demographic characteristics which will include all of the following:

- Ethnicity
- Percentage of English Language (EL) students
- Percentage of Special Education students
- Percentage of students qualifying for free/reduced lunch
- Total enrollment

As per the requirements of No Child Left Behind act (NCLB), Adequate Yearly Progress (AYP) will be demonstrated by New Horizons Charter Academy through an average increase of 3% of the total number of students who score in the *Proficient or Advanced* range for the majority of the years covered by this petition.

The combined percentage of students who score *Proficient or Advanced* on the *California Standards Test (CST)* will decrease by an average 3% in the majority of the years covered by this petition.

The combined percentage of students who score *Below Basic or Far Below Basic* on the *California Standards Test (CST)* will decrease by an average 3% in the majority of the years covered by this petition.

Continuous effort to meet *Annual Measurable Objectives (AMOs)* will be demonstrated through an average 5% increase in number of students scoring in the *Proficient or Advanced* range for the majority of the years covered by this charter.

New Horizons Charter Academy will successfully attain accreditation by the Western Association of Schools and Colleges (WASC).

**Goal 2:** *Students will build a foundation for a responsible work ethic by regular and punctual attendance.*
Measurable Outcome:

New Horizons Charter Academy will use various methods to assure an attendance rate of 96.5% or higher. An Attendance Officer (employee) will monitor and oversee all attendance records. Teachers will be responsible for assuring accurate attendance is taken on a daily basis. Monthly attendance records are posted and documented with attendance rates. Classes which have a below target attendance rate are supported by providing assistance in making phone calls to families who have frequent absences.

New Horizons Charter Academy will have various incentives for students who are in attendance 100% of the time monthly, full semester, and yearly. These incentives include, but are not limited to, pencils, bumper stickers, coupons to nearby restaurants, and medals, and school-wide recognition on Perfect Attendance Bulletin Board located in the lobby outside of the administration offices of the Charter School.

Goal 3:  Students will master English Language skills to fully access all educational, social, cultural and employment opportunities of mainstream society.

Measurable Outcome:

English Learners will increase individual CELDT scores, at least one level up per year, for the majority of the years covered by the charter term, as assessed annually.

The New Horizons Charter Academy reclassification rate will meet or exceed the rate of reclassification for similar neighborhood schools for the majority of years of the charter term.

Progress toward mastery of English Language Development (ELD) standards will be monitored and documented on the New Horizons Charter Academy ELD Portfolio twice a year for all English Learners.

Goal 4:  Students will demonstrate pro-social behavior with a sense of responsibility to their peers, home and community.

Measurable Outcome:

The number of students suspended or expelled will be 1% less than the LAUSD average for the majority of the years covered by the charter term, as assessed annually.

Teachers will maintain a positive classroom behavior system that will contain logs, charts, and parent communication for all inappropriate behavior. A student intervention referral will be completed for students who need additional academic support. A yearly evaluation of the quantity of referrals by teacher is provided with the specific reasons for referral highlighted. An achievement report is created and presented to Instruction Committee for possible course of action.
Element 3 – Means to Assess Pupil Progress

“The method by which pupil progress in meeting those pupil outcomes is to be measured” (Education Code § 47605 (b) (5) (C)).

The following demonstrates the method of measurement for each of the measurable outcomes listed above in Element 2.

Goal 1: Students will strive to master the rigorous academic content of the California State Content Standards, and think critically and reflectively about their academic success, accepting personal responsibility for improvement.

New Horizons Charter Academy will utilize publishers’ tests to determine consistent and continuous student progress toward mastery of California Content and Common Core State Standards. Assessments are conducted based on the recommended schedule of each adopted program, but the general timeframe calls for weekly and end-of-unit assessments for each state adoption.

New Horizons Charter Academy will use teacher developed assessment information to measure student progress, while anecdotal records and observation will provide the personalized, individualized information necessary to address the five learning systems of the brain\(^3\) and to maintain an effective learning environment for every student. Teachers will involve students in setting standards-based, achievable learning goals. Monitoring logs will be used to document their current levels of performance, learning goals, and assessment data which will be useful for differentiating instruction and parent conferences.

If necessary, New Horizons Charter Academy will use state adopted materials and assessments, (visual and performing arts, and physical education), teacher-designed assessments aligned with the California Content and Common Core State Standards and the pacing schedules developed by the New Horizons Charter Academy staff members responsible for each of the above named curricular areas determine levels of progress toward mastery or respective standards at each trimester reporting period.

Goal 2: Students will develop a responsible work ethic by regular and punctual attendance.

At New Horizons Charter Academy attendance is recorded daily in all classrooms. Charter School staff will oversee the entire attendance process, including verifying absences, calling parents, and making home visits. Each month, the attendance personnel will compare actual attendance to the goal of 96.5% attendance. All records are stored on the New Horizons Charter Academy database.

Goal 3: Students are encouraged to master English language skills to fully access all educational social, cultural and employment opportunities to mainstream society.

\(^3\) The five learning systems of the brain are: emotional learning; social learning; cognitive learning; physical learning; and reflective learning (Barbara K. Given, “Teaching to the Brain’s Natural Learning Systems”).
The primary method of assessment of students’ mastery of English skills is annual results of the California English Language Development Test (CELDT). Additionally, teachers utilize the English Language Development Assessment from the language arts text adoption, California Treasures.

Reclassification rates (which are typically not compared for students in kindergarten and first grade) will be compared with similar neighborhood schools.

The English Language Development portfolio for each student is reviewed regularly by classroom teachers, administrators, and special education staff as needed.

**Goal 4: Students will demonstrate pro-social behavior with a sense of responsibility to their peers, home and community.**

The number of referrals for disruptive classroom behavior and negative playground interactions will decrease yearly. Data will be maintained through the New Horizons Charter Academy database. Teachers will document interventions using student behavior contracts, school-home logs, and Second Step.

**Benchmarks**

Grade level benchmarks are created by teachers and will be uploaded onto a data program. This program will be a Standards-based Adaptive Measurement (SAM) that utilizes an innovative computer-adaptive, internet-based model to target the instructional level of each student by altering question difficulty based on previous answers. Once the test has been completed, the results are immediately available, providing an accurate evaluation of the student’s abilities. This research-based program will be a reliable, valid diagnostic test that has been shown to predict performance on standardized tests such as the California Standards Tests and has been an effective tool for identifying specific student needs in schools with demographics similar to New Horizons Charter Academy.

Benchmark testing will be conducted prior to finalizing student grades each trimester (every twelve weeks).

**State Mandated Assessment**

New Horizons Charter Academy will participate in all required statewide assessments tests and will meet all statewide standards applicable to non-charter public schools.

**Use of assessment data**

The Instruction Committee, an advisory committee that reports to the Board of Directors, will continue to analyze student assessment data at regularly scheduled monthly meetings. Percentages on weekly publishers’ tests for each classroom along with other teacher developed assessments, anecdotal records, and trimester grades will be reviewed by Lead Teachers prior to each reporting period for school progress reports. Positive as well as negative results will be shared by Lead Teachers and evaluated by the council to determine the specific causes for upward and downward trends, and specific action will be taken to modify or revise current instructional practices as necessary.
The Charter School staff will disaggregate data from yearly STAR tests for second through eighth grades to compare the New Horizons Charter Academy progress to that of the District’s and the state for each curricular area, grade level, and significant subgroup. This analysis will focus the New Horizons Charter Academy efforts to keep pace with the state and District, and to be aware of the promising practices of the educational community at large.

All findings from the analysis of state and local assessments, and state and District comparisons, will continue to drive the allocation of the New Horizons Charter Academy resources. Funding recommendations and the scheduling of professional activities will be made by the Instruction Committee based on careful analysis of student achievement data. This committee’s recommendation will be passed on to the Finance Committee for fiscal review. Both bodies are advisory committees and report to the Board of Directors. Final determination of implementation of all policies and initiatives will be the responsibility of the Board of Directors.

The Parent and Community Advocacy Committee, an advisory committee that reports to the Board of Directors, conducts evening meetings for parents and school community members to share school-wide standardized test score results in the fall of each school year. Individual student test score results are mailed home to parents in a timely manner, and discussed, interpreted and analyzed for parents by classroom teachers during parent conferences scheduled in the fall of each school year.

Testing

New Horizons Charter Academy agrees to comply with and adhere to the State requirements for participation and administration of all state mandated tests. If New Horizons Charter Academy does not test (i.e., STAR, CELDT, CAHSEE) with the District, New Horizons Charter Academy hereby grants authority to the state of California to provide a copy of all test results directly to the District as well as to New Horizons Charter Academy.

Element 7 – Means to Achieve Racial & Ethnic Balance

“The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the district to which the charter petition is submitted” (Education Code Section 47605(b)(5)(G)).

Recruitment Plan

The Petitioners have already begun efforts to inform our diverse parents, neighbors and community members about the charter establishment process. These efforts will continue throughout the approval process and following approval until the first year enrollment goal has been met. It is our intent to attract a diverse student body reflective of the general population residing within the territorial jurisdiction of the Los Angeles Unified School District; we are reaching out to the community accordingly. Our outreach plans are detailed in Community Outreach Initiatives, attached as Appendix E and included immediately below.

New Horizons Charter Academy plans to utilize a broad based community outreach program. The initial plan will call for the use of the internet, print media, mailings and local groups and regional organizations. This plan will be started as soon as the charter is approved which is anticipated to be in April 2013.

NHCA will be creating a website to be the main source of information about the Charter School. Those searching on the internet for elementary schools in the North Hollywood area should be able to find our school easily. NHCA would also want the parents to be able to read more about the Charter School and its goals and accomplishments before visiting. All of this will be communicated by the Charter School’s website. The website is designed to be a source of information about the Charter School and also to highlight important aspects of the educational program and operation that parents may want to know. Besides the website, other marketing websites such as Yelp, Schooldigger.com, localschooldirectory.com, greatschools.com, and laparenthood.com can be used to promote the Charter School online and help parents in finding the school.

With print media, the focus would be on several sources. The first would be a popular parenting magazine called LA Parent and would start in May 2013. This publication is often found at grocery stores and other neighborhood stores. It is a “go-to” guide for parents in the Los Angeles area. Additionally, advertisements would be placed in La Opinion and the Los Angeles Times also starting in May 2013. These newspapers would be the ones that would most likely be accessed by perspective parents. The ads would announce the Charter School and highlight the benefits of attending.

NHCA will conduct a direct mail campaign that targets the homes in the neighborhoods around the Charter School. A small postcard will be developed to announce the Charter School’s opening and focus on the strengths of the Charter School. High quality pictures will assure that our facility will be noticed in mailboxes. This will begin in May 2013 and run until June 30, 2013.

Next, NHCA would join the North Hollywood Chamber of Commerce and utilize its resources and strengths to publicize the Charter School. The Chamber of Commerce is well organized and connected to so many groups. It holds mixers and networking events that would be very beneficial to the Charter School. The Charter School would host one of these events to show the business owners and
representatives how great NHCA truly is. The Chamber members would then tell associates, friends and family about the Charter School.

NHCA will be talking to the local churches and synagogues to let each congregation know about the new charter school in their area. These kinds of gatherings would be ideal to get the Charter School’s message out to large groups. Some of the churches in the area include: Christ Chapel of the Valley, First United Methodist Church, St. David’s Church and St. Paul First Lutheran. We will be going to services starting on April 27 and then on May 5, 12, 19 and 26th. In June, we will visit the churches on the 2nd, 9th, 16th, 23rd and 30th.

NHCA has a very close relationship with its local councilmen, Tom LaBonge and Paul Krekorian. These two political offices will be used to extend to Los Angeles and the greater Valley’s knowledge of the Charter School. As representatives of their communities, their role is to promote new endeavors and successes in their districts. It is anticipated that part of their discussions will include education and of course the new charter school opening that will greatly enhance the community.

The National Council of La Raza works to promote opportunities for Hispanics. One of its primary focuses is on education. NHCA will be working with NCLR and using its experience to help build a school that supports Hispanics and other ethnic groups to excel and reach their educational goals. It is our goal to broaden the involvement of these communities within the greater Los Angeles and Valley communities, which will definitely benefit the Charter School’s enrollment.

Court-ordered Integration

New Horizons Charter Academy shall comply with all requirements of the Crawford v. Board of Education, City of Los Angeles court order and the LAUSD Integration Policy adopted and maintained pursuant to the Crawford court order, by Student Integration Services (collectively the Court-ordered Integration Program). The Court-ordered Integration Program applies to all schools within or chartered through LAUSD. The Charter School will provide a written plan in the charter petition and upon further request by the District outlining how it would achieve and maintain the LAUSD’s ethnic goal of 70:30 or 60:40 ratio. *(Ratio represents the percentage of Predominantly Hispanic Black Asian Other (PHBAO) compared to Other White (OW)).* The written plan should list specific dates, locations and recruitment activities to achieve the District’s Racial and Ethnic Balance goal.

The District receives neither average daily attendance allocations nor Court-ordered Integration Program cost reimbursements for charter school students. Instead, the District now receives the Targeted Instruction Improvement Grant (TIIG) for its Court-ordered Integration Program. The District retains sole discretion over the allocation of TIIG funding, where available, and cannot guarantee the availability of this Funding.

No Child Left Behind - Public School Choice (NCLB-PSC) Traveling Students

As required under NCLB, all NCLB-PSC students attending New Horizons Charter Academy shall have the right to continue attending New Horizons Charter Academy until the highest grade level of the charter. New Horizons Charter Academy will ensure that all of its NCLB-PSC students are treated in the same manner as other students attending the Charter School. NCLB-PSC students are and will be eligible for all applicable instructional and extra-curricular activities at our school. New Horizons Charter Academy will make reasonable efforts to invite and encourage the participation of the parents of NCLB-PSC students in the activities and meetings at the Charter School.

Determination of student eligibility for this NCLB-PSC option, including the grade level of eligibility, will be made solely by the District, based on the District’s NCLB-PSC process, guidelines, policies and the requirements of NCLB. In the event demand for places at New Horizons Charter Academy under the
NCLB-PSC program increases in subsequent years, New Horizons Charter Academy agrees to discuss with the District the possibility of increasing the number of NCLB-PSC places available at the Charter School.

District Oversight Costs

The District may charge for the actual costs of supervisory oversight of New Horizons Charter Academy not exceed 1% of the charter school’s revenue, or the District may charge for the actual costs of supervisory oversight of the charter school not to exceed 3% if the charter school is able to obtain substantially rent free facilities from the District. Notwithstanding the foregoing, the District may charge the maximum supervisory oversight fee allowed under the law as it may change from time to time. The supervisory oversight fee provided herein is separate and distinct from the charges arising under the charter school/facilities use agreements.

Balance Reserves

Additionally, it is recommended that the New Horizons Charter Academy maintain a funds balance (reserve) of its expenditures as outlined in section 15450, Title 5 of the California Code of Regulations.

Special Education Revenue Adjustment/Payment for Services
In the event that New Horizons Charter Academy owes funds to the District for the provision of agreed upon or fee for service or special education services or as a result of the State’s adjustment to allocation of special education revenues from the New Horizons Charter Academy, the charter school authorizes the District to deduct any and all of the in lieu property taxes that New Horizons Charter Academy otherwise would be eligible to receive under section 47635 of the Education Code to cover such owed amounts. The charter school further understands and agrees that the District shall make appropriate deductions from the in lieu property tax amounts otherwise owed to New Horizons Charter Academy. Should this revenue stream be insufficient in any fiscal year to cover any such costs, New Horizons Charter Academy agrees that it will reimburse the District for the additional costs within forty-five (45) business days of being notified of the amounts owed.

- The District is authorized to revoke this Charter for, among other reasons, the failure of the New Horizons Charter Academy to meet generally accepted accounting principles or if it engages in fiscal mismanagement.

Accordingly, the District hereby reserves the right, pursuant to its oversight responsibility, to audit New Horizons Charter Academy books, records, data, processes and procedures through the District Office of the Inspector General or other means. The audit may include, but is not limited to, the following areas:

- New Horizons Charter Academy’s debt structure,
- Governance policies, procedures and history,
- The recording and reporting of attendance data,

New Horizons Charter Academy shall cooperate fully with such audits and shall make available any and all records necessary for the performance of the audit upon 30 days’ notice to New Horizons Charter Academy. When 30 days’ notice may defeat the purpose of the audit, the District may conduct the audit upon 24-hours’ notice.
New Horizons Charter Academy will develop and maintain internal fiscal control policies governing all financial activities.
Element 10 – Suspensions and Expulsions

“The procedures by which pupils can be suspended or expelled” (Education Code Section 47605(b)(5)(J)).

Student Suspension and Expulsion Policy

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well-being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 et seq. which describes the non-charter schools’ list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School’s policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations. Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee’s use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that these Policy and Procedures are available on request at the Executive Director’s office.

Suspended or expelled students shall be excluded (e.g. not permitted to participate) from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

LAUSD-Specific Language

The Charter School shall provide due process for all students, including adequate notice to parents/guardians and students regarding the grounds for suspension and expulsion and their due process rights regarding suspension and expulsion, including rights to appeal.

The Charter School shall ensure that its policies and procedures regarding suspension and expulsion will be periodically reviewed, and modified as necessary, including, for example, any modification of the lists of offenses for which students are subject to suspension or expulsion.

The Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of the Charter School’s student expulsion process.
Charter Schools will implement operational and procedural guidelines ensuring federal and state laws and regulations regarding the discipline of students with disabilities are met. Charter Schools will also ensure staff is knowledgeable about and complies with the district’s Discipline Foundation Policy. If the student receives or is eligible for special education, the Charter School shall identify and provide special education programs and services at the appropriate interim educational placement, pending the completion of the expulsion process, to be coordinated with the LASUD Special Education Service Center.

The Charter School shall document the alternatives to suspension and expulsion the Charter School utilizes with students who are truant, tardy, or otherwise absent from compulsory school activities.

C. Suspension Procedure

Suspensions shall be initiated according to the following procedures:

1. Conference

Suspension shall be preceded, if possible, by a conference conducted by the Administrator or the Administrator’s designee with the student and his or her parent and, whenever practical, the teacher, supervisor or Charter School employee who referred the student to the Administrator or designee.

The conference may be omitted if the Administrator or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or Charter School personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference.

At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two school days of when the Administrator determines that the student committed a suspension offense, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. No penalties may be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with Charter School officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

2. Notice to Parents/Guardians

At the time of the suspension, the Administrator or designee shall make a reasonable effort
to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense(s) committed by the student. In addition, the notice may also state the date and time when the student may return to school. If the Charter School Administrator or designee wishes to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may request that the parent/guardian respond to such requests without delay.

3. Suspension Time Limits/Recommendation for Expulsion

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension, or twenty (20) school days per year. Upon a recommendation of Expulsion by the Administrator or Administrator’s designee, the pupil and the pupil’s guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Administrator or designee upon either of the following: 1) the pupil’s presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil’s suspension will be extended pending the results of an expulsion hearing. The student will have the opportunity, at the discretion of the Administrator and/or the classroom teacher, to complete instructional activities missed due to his suspension and will be able to communicate with designated school staff for any questions and for evaluation of work.

D. Authority to Expel

A student may be expelled either by the Board following a hearing before it or by the Board upon the recommendation of an Administrative Panel to be assigned by the Board as needed. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the pupil or a Board member of the Charter School’s governing board. The Administrative Panel may recommend expulsion of any student found to have committed an expellable offense.

E. Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing, if requested, shall be held within thirty (30) school days after the Administrator or designee determines that the pupil has committed an expellable offense and has made a recommendation for expulsion.

In the event an administrative panel hears the case, it will make a recommendation to the Board for a final decision whether to expel. The hearing shall be held in closed session unless the pupil makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student’s parent/guardian at least ten (10) calendar days by the Administrator or designee before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:
1. The date and place of the expulsion hearing;

2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based;

3. A copy of the Charter School's disciplinary rules which relate to the alleged violation;

4. Notification of the student's or parent/guardian's obligation to provide information about the student's status at the school to any other school district or school to which the student seeks enrollment;

5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;

6. The right to inspect and obtain copies of all documents to be used at the hearing;

7. The opportunity to confront and question all witnesses who testify at the hearing;

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

F. Special Procedures for Expulsion Hearings Involving Sexual Assault or Battery Offenses

The Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations which shall be examined only by the Charter School or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness’ use prior to and during breaks in testimony.

3. At the discretion of the entity conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The entity conducting the expulsion hearing may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.
5. The entity conducting the expulsion hearing may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The entity conducting the hearing may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness’ presence is both desired by the witness and will be helpful to the Charter School. The person presiding over the hearing shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the courtroom during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness’ prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

G. Record of Hearing
A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

**H. Presentation of Evidence**

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A recommendation by the administrative panel to expel must be supported by substantial evidence presented at the hearing that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay and sworn declarations may be admitted as testimony from witnesses of whom the Board of Directors or Administrative Panel determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the expelled pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact and a written recommendation to the Board of Directors who will make a final determination regarding the expulsion. The final decision by the Board shall be made within ten (10) school days following the conclusion of the hearing, whether the Administrative Panel or the Board conducts the hearing. The Board shall make its decision during a public meeting. The decision of the Board of Directors is final.

If the Board adopts a recommendation to expel a student, the procedures outlined below will be followed. If the Board rejects a recommendation to expel a student, the student shall immediately be returned to his/her educational program. If the administrative panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

If the Board hears a case and it decides to expel a student, the procedures outlined below will be followed. If the Board decides not to expel a student, the student shall immediately be returned to his/her educational program.

If the student is eligible for Section 504 Accommodations, the Charter School must provide evidence that it convened a Link Determination meeting to address two questions: A) Was the misconduct caused by, or directly

J. Disciplinary Records

The Charter School shall maintain records of all student suspensions and expulsions at the Charter School. Such records shall be made available to the authorizer upon request.

Terms of expulsion should be reasonable and fair with the weight of the expelling offense taken into consideration when determining the length of expulsion. Therefore, the rehabilitation plan should include a date not later than one year from the date of expulsion when the pupil may reapply to the Charter School for readmission.

Readmission

The Charter School’s governing board shall adopt rules establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission. Upon completion of the readmission process, the Charter School’s governing board shall readmit the pupil, unless the Charter School’s governing board makes a finding that the pupil has not met the conditions of the rehabilitation plan or continues to pose a danger to campus safety. A description of the procedure shall be made available to the pupil and the pupil’s parent or guardian at
the time the expulsion order is entered and the decision of the governing board, including any related findings, must be provided to the pupil and the pupil’s parent/guardian within a reasonable time.

As set forth in the MOU regarding special education between the district and the Charter School, an IEP team, including a District representative, will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District’s Policies and Procedures Manual. Prior to recommending expulsion for a student with a 504 Plan, the Charter School’s administrator will convene a Link Determination meeting to ask the following two questions: A) Was the misconduct caused by, or directly and substantially related to the student’s disability? School and Student Records Retention and Transfer

New Horizons Charter Academy shall observe the following in the transfer and maintenance of school and student records:

1. New Horizons Charter Academy will provide the District with original cumulative files and behavioral records pursuant to District policy and applicable handbook(s) regarding cumulative records for secondary and elementary schools for all students both active and inactive at the New Horizons Charter Academy. All records are to be boxed and labeled by classification of documents and the required duration of storage.
**Financial Close-Out**

After receiving notification of closure, the CDE will notify the charter school and the authorizing entity if it is aware of any liabilities the charter school owes the state. These may include overpayment of apportionments, unpaid revolving fund loans or grants, or other liabilities. The CDE may ask the county office of education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

New Horizons Charter Academy shall ensure completion of an independent final audit within six months after the closure of the school that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.
2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.
3. An assessment of the disposition of any restricted funds received by or due to the charter school.

This audit may serve as the school’s annual audit.

The financial closeout audit of New Horizons Charter Academy will be paid for by New Horizons Charter Academy. New Horizons Charter Academy understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds will be returned to the District SELPA or the SELPA in which the New Horizons Charter Academy participates, and other categorical funds will be returned to the source of funds.

These reports must be submitted to the CDE and the authorizing entity in the form required. If the charter school chooses to submit this information before the forms and software are available for the fiscal year, alternative forms can be used if they are approved in advance by the CDE. These reports should be submitted as soon as possible after the closure action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed charter school with the data of the authorizing entity. This
practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

**Disposition of Liabilities and Assets**

The closeout audit must determine the disposition of all liabilities of the charter school. Charter school closure procedures must also ensure disposal of any net assets remaining after all liabilities of the charter school have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. The return of any donated materials and property according to any conditions set when the donations were accepted.
2. The return of any grants and restricted categorical funds to their source according to the terms of the grant or state and federal law.
3. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.

Net assets of the charter school may be transferred to the authorizing entity. If the charter school is operated by a nonprofit corporation, and if the corporation does not have any other functions than operation of the charter school, the corporation will be dissolved according to its bylaws.

a. The corporation’s bylaws will address how assets are to be distributed at the closure of the corporation.
b. A copy of the corporations bylaws containing the information on how assets are to be distributed at the closure of the corporation, are to be provided to LAUSD prior to approval of this Charter.

The DEI Board shall adopt a plan for wind-up of the school and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

**New Horizons Charter Academy** shall provide LAUSD within fourteen (14) calendar days of closure action prior written notice of any outstanding payments to staff and the method by which the school will make the payments.

d. File the final withholding tax return (Treasury Form 165).

This Element 16 shall survive the revocation, expiration, termination, cancellation of this charter or any other act or event that would end New Horizons Charter Academy right to operate as a charter school or
cause New Horizons Charter Academy to cease operation. New Horizons Charter Academy and District agree that, due to the nature of the property and activities that are the subject of this petition, the District and public shall suffer irreparable harm should charter school breach any obligation under this Element 16. The District, therefore, shall have the right to seek equitable relief to enforce any right arising under this Element 16 or any provision of this Element 16 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Charter School agrees that occupancy and use of LAUSD facilities shall be in compliance with applicable laws and LAUSD policies for the operation and maintenance of LAUSD facilities and furnishings and equipment. All LAUSD facilities (i.e., schools) will remain subject to those laws applicable to public schools which LAUSD observes.

In the event of an emergency, all LAUSD facilities (i.e., schools) are available for use by the American Red Cross and public agencies as emergency locations which may disrupt or prevent Charter School from conducting its educational programs. The New Horizons Charter Academy will not open without providing a copy of the Certificate of Occupancy for the designated use of the facility. If the New Horizons Charter Academy moves or expands to another facility during the term of this charter, the Charter School shall provide a Certificate of Occupancy to the District for each facility before the school is scheduled to open or operate in the facility or facilities. Notwithstanding any language to the contrary in this charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.

It is anticipated that New Horizons Charter Academy will provide or procure most of its own administrative services including, but not limited to, financial management, personnel, and instructional program development either through its own staff or through an appropriately qualified third-party contractor. New Horizons Charter Academy is interested in discussing the possibility of purchasing administrative services from LAUSD. If the District agrees, the specific terms and cost for these services will be the subject of an annual memorandum of understanding between the NHCA and the LAUSD and subject to its availability and willingness to provide such services.

C. **Facilities**
“The facilities to be utilized by the school. The description of the facilities to be used by the charter school shall specify where the school intends to locate” (Education Code Section 47605(g)).

The Charter School will operate at 5955 Lankershim Blvd. in North Hollywood. The facility has 10,000 square feet with 12 classrooms; will be housed in one building with and reception and office space; and has a multipurpose room of approximately 4,000 square feet. There is an outdoor playground for K-5th grade. Grades 6-8 will utilize the outdoor space at Maurice Sendak Elementary School, the North Hollywood multi-purpose senior center, a public park, or another suitable location where the Charter School can ensure the safety of students, following approval from the appropriate entity.

D. **Transportation**

The NHCA will not provide transportation to and from school, except as required by law for students with disabilities in accordance with a student’s IEP.
Liability Impact on District

“Potential civil liability effects, if any, upon the school and upon the District” (Education Code Section 47605(g)).

New Horizons Charter Academy shall be operated by DEI, a California non-profit public benefit corporation. This corporation is organized and operated exclusively for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and California Revenue and Taxation Code Section 23701(d).

The corporate bylaws of DEI shall provide for indemnification of DEI’s Board, officers, agents, and employees, and the Charter School will purchase general liability insurance, Board Members and Officers insurance, and fidelity bonding to secure against financial risks.

The DEI Board will institute appropriate risk management practices as discussed herein, including screening of employees as indicated in Element 6, establishing codes of conduct for students as indicated in Element 10, and internal dispute resolution.
Conclusion

By approving this charter, LAUSD will be fulfilling the intent of the Charter Schools Act of 1992 to improve pupil learning; create new professional opportunities for teachers; and provide parents and pupils with expanded choices in education and following the directive of law to encourage the creation of charter schools. The Petitioners are eager to work independently, yet cooperatively with the District to establish the highest bar for what a charter school can and should be. To this end, the Petitioners pledge to work cooperatively with LAUSD to answer any concerns over this document and to present LAUSD with the strongest possible charter proposal requesting a five year term from July 1, 2013 through June 30, 2018.
